The City Council of Valencia has transformed a parking area located near the Pérez Galdós avenue into a square with a pergola and street furniture, such as benches and picnic tables which, combined with the paving, provide the space with its own design and identity..

The goal was to extend the pedestrian space on an axis with a large influx of vehicles. The **Pérez Galdós-Giorgeta avenue** is a very busy axis with an important presence of vehicles.

BENITO's Picnick tables are made of pinewood treated in vacuum pressure autoclave class IV against woodworm, termites and insects.
